

CONSOLIDATED TURNOVER

1ST QUARTER 2006

OFF TO A SOLID START

Paris, 11 May 2006 – CEGEDIM, Europe's leading provider of integrated sales and marketing solutions specifically designed for the global pharmaceutical industry, generated consolidated turnover growth of 12% in the first quarter of 2006.

in million euros	2006	2005	Variation	Organic Growth %
CRM and strategic data	55,369	49,077	13 %	4 %
Healthcare professionals	30,464	25,175	21 %	18 %
Healthcare insurance services	19,953	19,418	3 %	3 %
Healthcare and strategic data	105,786	93,671	13 %	7 %
Technologies and services	20,464	19,480	5 %	5 %
Total	126,250	113,151	12 %	7 %

The « **CRM and strategic data** » sector's international activities maintained their very brisk momentum: Q1 2006 organic growth came to 14%, and growth including the companies acquired starting in April 2005 (notably Target Software in the US and Egyptian and UK subsidiaries) came to 34%. As expected, French business fell somewhat over the quarter.

These opposing trends are likely to continue for the rest of the year 2006 and are right in line with our forecasts. Having garnered as much market share as it could in France, CEGEDIM Group had the foresight to lay the groundwork abroad that is now enabling it to pursue its long-term expansion. Overall, turnover growth came to 13%, including organic growth of 4%.

« **Healthcare professionals** » businesses posted strong growth, led in France by pharmacists' software (+17%) and in the UK by doctors' software (+17%) and pharmacists' software (+39%). UK businesses are ahead of schedule with respect to signing new licenses. Acquisition growth is the result of the March 2006 purchase of RM Ingénierie (French leader in physical therapy software) and the H2 2005 purchase of the Rosenwald professional directories company.

Growth in the « **Healthcare insurance services** » and « **Technologies and services** » sectors was in line with our forecasts.

2006 outlook

The Group expects consolidated full-year 2006 turnover of around €535 million.

About CEGEDIM:

CEGEDIM develops exclusive databases and high value added software solutions. Its expertise falls into two divisions. The "Healthcare and strategic data" division comprises services specifically designed for pharmaceutical companies, healthcare professionals and health insurance providers. The "Technologies and services" division covers a variety of sectors.

Established as the European leader in its historic core business, CEGEDIM provides the world's largest pharmaceutical companies with vital support for successful CRM (Customer Relationship Management) and helps measure sales & marketing effectiveness. CEGEDIM's CRM tools, backed by the Group's powerful strategic databases, also provide its clients with a clearer picture of their markets and targets, optimizing both strategies and return on investment.

Founded in 1969, and the only European company operating globally in this market, CEGEDIM employs 4,700 people and generated turnover of €501 million in 2005 in over 60 countries. To learn more, please see our website: www.cegedim.com.
