

CEGEDIM: INITIAL BOND ISSUE A SUCCESS, RAISING €300 MILLION OVER 5 YEARS

Paris, July 21, 2010 – As part of its policy of diversifying and extending the average maturity of its debt, [Cegedim](http://www.cegedim.com) (BB+ S&P), a global technology and services company specializing in the healthcare field, yesterday completed the successful launch of a €300 million bond maturing in 2015, with a fixed annual coupon of 7.00% payable every six months.

The strong demand generated by the operation, finalized in just half a day, the quality of the interested parties, and geographic diversity of the investors – of which 70% were located outside of France - enabled Cegedim to raise the €300 million under favorable conditions.

All of the funds raised will be used to reimburse part of the existing bank debt. The result is an improvement in the Group's debt profile, a longer average maturity and stronger cash position.

At the same time, the debt issue demonstrates Cegedim's ability to tap financial markets.

Joint bookrunners are Crédit Agricole CIB and Société Générale Corporate & Investment.
