

RENAULT GROUP SUBSIDIARY DIAC LOCATION/OVERLEASE (GROUPE DIAC/RCI BANQUE) MANAGES CUSTOMER INVOICES USING CEGEDIM'S GLOBAL INVOICE SERVICES PLATFORM

TOTAL INVOICE DEMATERIALIZATION AT THE EUROPEAN LEVEL

Paris, 11 April 2008 – CEGEDIM, the expert in electronic data interchange with over 350 million accounting flows processed annually, announces that DIAC Location/Overlease (Groupe DIAC/RCI Banque), a Renault Group subsidiary and the French leader in automobile financing, has chosen the Global Invoice Services™ platform for dematerializing its customer invoices.

Choosing a dematerialization expert

DIAC Location/Overlease (Groupe DIAC/RCI Banque), a Renault Group subsidiary, is the French leader in long-term vehicle leasing and related services for corporate clients.

To pull off the fiscal dematerialization of invoices for its 42,000 customers and those of Groupe RCI Banque's Spanish long-term leasing subsidiary Overlease – a total of 1,200,000 invoices annually – DIAC Location/Overlease in France and Overlease in Spain made the decision in 2007 to adopt CEGEDIM's Global Invoice Services™ (GIS) platform.

"We chose CEGEDIM for its reputation as an experienced fiscal dematerialization specialist and because its Global Invoice Services platform, which is certified compliant with current European regulations, has the ability to meet all of our needs," says Christophe Saintange, Head of Operational Product Marketing at DIAC Location/Overlease. *"In addition, GIS will enable us to help our clients, regardless of whether they already practice fiscal dematerialization, to meet their goals of significantly reducing invoice handling costs by doing away with paper invoices."*

An ambitious European project

DIAC Location/Overlease in France and Overlease in Spain are aiming to achieve 100% fiscal dematerialization of their customer invoices using EDI and signed PDFs stored on the Global Invoice Services platform.

To ensure that the project was carried out successfully, at DIAC Location/Overlease's request CEGEDIM first conducted a comprehensive analysis of the company's existing invoicing process and future needs.

GIS will enable DIAC Location/Overlease to outsource the processing and legal record-keeping of its invoices. The GIS platform will also make it possible for DIAC Location/Overlease in France and Overlease in Spain, as well as their respective clients, to deliver and return invoices via a dedicated web interface.

“Being chosen by DIAC Location was very important to us because the company has a vast invoicing operation at the European level. Furthermore, it gives us a chance to show CEGEDIM’s ability to adapt to its clients’ needs, regardless of their field,” added Vanessa Debuire, Head of Dematerialization Services Development.

About DIAC Location/Overlease (DIAC/RCI Banque Group):

With a fleet of more than 225,000 vehicles and more than 42,000 clients, DIAC Location is the French leader in long-term vehicle leasing and related services for corporate clients

About Global Invoice Services:

On the strength of its 20 years’ experience in computerized data exchange, CEGEDIM created Global Invoice Services (GIS) to partner with clients in this area of their operations.

GIS is a platform that makes it possible to manage all of the functional, technical and legal aspects of invoice dematerialization, record keeping and restitution. In addition to cost savings, Global Invoice Services makes the invoicing process more reliable and enhances customer/supplier/bank relations.
