

CEGEDIM TO MEET WITH ENGINEERING STUDENTS

AT THE 23RD RHÔNE-ALPES FORUM - 12 MARCH 2008 IN LYON

STAND F1 AND AT THE MICRO-CONFERENCE VENUE AT 5:00 PM

Paris, 25 February 2008 – CEGEDIM, the world leader in medical information technologies and services, will participate in the Rhône-Alpes Forum on 12 March 2008. The forum is the leading job fair for engineering students in Europe. It will take place in Lyon at the Espace Double Mixte on the La Doua campus. The forum will give CEGEDIM, at Stand F1, an opportunity to showcase its businesses and communicate the types of applicants it is looking for as part of its active recruitment policy. CEGEDIM will also lead a seminar on these topics at 5:00 pm.

CEGEDIM's dynamic recruitment policy

This year, the 23rd Rhône-Alpes Forum will play host to over 200 companies and 10,000 students. At **Stand F1**, CEGEDIM will present the job and internship opportunities it has for recent graduates. The company will also take the stage on **12 March 2008 from 5:00 to 5:20 pm at the micro-conference venue**.

CEGEDIM has grown steadily since its creation in 1969 and now has nearly 8,000 employees at over 100 subsidiaries in 80 countries. To sustain its development, CEGEDIM regularly recruits and trains recent graduates in its disciplines. For example, over 500 new employees joined CEGEDIM in 2007.

At the forefront of technology, CEGEDIM offers its clients – pharmaceutical companies, healthcare professionals, health insurance entities and corporations – solutions that combine innovation and service quality.

CEGEDIM develops its solutions using the most advanced architectures and technologies – Java (J2EE, Flex, Struts and Hibernate), Linux, ETL Informatica, Oracle 11g, Macromedia Flex, J2EE application servers, ESB urbanization, framework.NET and C# – and structures its projects around the CMMI process and ITIL standard.

A wide array of professions offer regional, national and international career opportunities

The diversity of CEGEDIM's professions and activities enables it to offer real career opportunities in a variety of fields at a company that has managed to develop on five continents while retaining a human scale: sales, research, consulting and information technology (technical architecture and operational management of application projects).

"Our organization puts a premium on teams of a human scale," says Chantal Perusat, CEGEDIM Group HR Director. *"This facilitates communication, the teaching of technical and operational skills, sharing experiences, and imparting values like innovation, pragmatism and a commitment to customer service."*

CEGEDIM is an international company, but it is also very active in the Rhône-Alpes region, notably through its CEGEDIM ACTIV and CEGEDIM SRH subsidiaries, which are based in Lyon.

CEGEDIM ACTIV, the French leader in software and services for the personal insurance sector (health, provident, life, savings and retirement insurance), is currently looking to fill the following positions:

- Development engineer,
- Operational engineer to provide clients with on-site assistance,
- Business engineer,
- Project management consultant,
- Operations consultant.

CEGEDIM SRH specializes in outsourcing French companies' payroll management and human resources functions and is also looking for engineers with a background in payroll techniques and operations and HRIS.

About Cegedim SRH:

Cegedim SRH is France's second-largest provider of outsourced payroll and human resources administration services. It strives to help companies focus on their core business by delivering competencies specific to managing payroll and human resources. It accomplishes this mission by using its proprietary payroll and HR management solution: TEAMS^{RH} developed with 100% Java technology, to devise outsourcing services tailored to each individual company. The company's clients include French and international corporations from every business sector, with headcounts ranging from 200 to 5,000. Cegedim SRH is part of CEGEDIM Group's "Technologies and services" division.
