

PRESS RELEASE

Cegedim consolidates its cloud positioning

Hosting and facilities management united under the Cegedim.cloud brand

Boulogne-Billancourt, France, November 15, 2017

Cegedim, an innovative technology and services company, has created a new brand to house its IT businesses: Cegedim.cloud. The new brand will showcase Cegedim's unique line-up of cloud services for hosting critical applications and sensitive data.

Cegedim, a medical records hosting pioneer, has expanded its international infrastructure and expanded its security credentials. It will now market these services under the [Cegedim.cloud](#) brand, combining its cloud computing and medical records hosting expertise.

"The new brand highlights the agile, comprehensive and secure capabilities that our cloud offering can bring to companies that host and manage business-critical data and applications," said [Frédéric Le Guillou, Cegedim Chief Information Officer](#).

Cegedim has nine datacenters in the US, Europe and Asia. With more than 300 private clouds and the IT expertise of 120 employees, [Cegedim.cloud](#) ensures that critical applications are available for clients and secure. Applications that are already utilizing the services include: Electronic Medical Records, HR & Payroll, Accounting & Finance, and Payment Processing with over 400,000 daily users.

A complete, scalable hosting service

Cegedim is France's #4 software publisher ([2017 Truffle100 ranking](#)) and its #1 medical software publisher (Truffle100 and Syntec Numérique ranking). Its [Cegedim.cloud](#) brand offers services to meet a wide range of needs:

- **Facilities management**, full-service outsourcing that lets the client focus on core business;
- **Platform as a Service (PaaS)**, for a guaranteed level of performance and security;
- **Infrastructure as a Service (IaaS)**, on-demand infrastructure that lets clients run all their applications;
- **Colocation**, letting clients rent private space at one of Cegedim's datacenters.

Cegedim has the credentials needed to carry out activities such as medical record hosting, outsourcing, and information security, and it adheres to the social responsibility principles of the United Nations Global Compact.

"We are an experienced partner for our clients, and our services meet the highest international standards for quality and security. Our expertise and credentials let clients' users execute their business with confidence," noted [Frédéric Le Guillou](#).

Cegedim CIO Frédéric Le Guillou will give a presentation on digital transformation and cloud strategy at the [Paris Dell EMC Forum 2017](#), at 12:15 pm on November 21, 2017.
