

Cegedim recognized for the quality of its corporate governance practices

2012 L'AGEFI Corporate Governance Awards

Paris, September 27, 2012 – [Cegedim](#), a global technology and services company specializing in the healthcare field, yesterday received the “Mid Cap Corporate Governance” award in recognition of the quality of the transparency and governance practices that the Group has adopted.

For the past nine years, the L'AGEFI-sponsored Corporate Governance Awards have been recognizing issuers that provide the excellence in transparency and corporate governance demanded by investors: governing body operating methods, board composition, shareholder meeting organization, social responsibility, risk management, transparent communications, etc.

These prizes are awarded based on the results of an opinion poll of professionals in the financial sector. Their methodology is rated and validated by a steering committee, which ensures that questions are rigorous and meet the standards of market participants.

“We are extremely proud of this honor and the recognition from our fellow financial industry professionals of how we have enhanced our transparency and governance in recent years in order to meet investors’ increasingly demanding standards,” said Jan Eryk Umiastowski, Cegedim’s Chief Investor Relations & Chief Investment Officer.

The Corporate Governance Awards ceremony was held Wednesday, September 26, 2012, at Latham & Watkins’ Paris offices, following a round table on the topic “Yes or no on a French-style ‘say on pay’?”.
