

## **CEGEDIM ANNOUNCES THE ACQUISITION OF 100% OF FRENCH COMPANY HOSTA**

AS PART OF THE ONGOING EXPANSION OF ITS PORTFOLIO  
OF “INSURANCE AND SERVICES” SECTOR SOLUTIONS

**Paris, June 30, 2010** – Cegedim, a global technology and services company specializing in the healthcare field, announces the acquisition of French company Hosta, a specialist in third-party management in which it has held a minority stake since 2004.

Managing 400,000 beneficiaries and boasting extensive experience in third-party management of health and personal protection insurance policies, Hosta is among France’s leading third-party management companies.

The company offers its clients flexible “white label” solutions tailored to the needs of complementary insurance providers for the total or partial management of their health or personal protection insurance portfolios, either temporarily or permanently.

Hosta’s addition to the Cegedim Group will allow it to pursue its ambitious development plan by adding the expertise and sound positioning of this industry player.

A part of the Group’s “*Insurance and services*” sector, Hosta will generate a number of synergies with the other activities of the “*Insurance, electronic payment and health*” division. The company will also benefit from the division’s expertise in managing mutual insurers’ services platforms and other information technology activities.

Lastly, this acquisition expands Cegedim Group’s portfolio of solutions, allowing it to offer all of its clients in the insurance sector (insurers, provident institutions, mutual insurers and brokers) tailored solutions suited to their strategies (growth, cost cutting, innovation, etc.) and their operational constraints (excessive activity, integrating portfolios, mobilizing internally for a new offering, etc.).

The deal was finalized on June 18 by internal financing. The acquired businesses represent annual revenues of approximately €11 million.

**About Hosta:**

Hosta is a management services company that delivers tailored white-label solutions to Health and Personal Protection insurance providers.

Its products and services constitute a comprehensive offering in every area of insurance policy management. Hosta is staffed by a team of experienced managers and is equipped with the latest generation of information systems. Its platform incorporates CRM and document dematerialization applications that can be shared with its clients. Hosta can also deliver certain services using its clients' applications.

Hosta has 150 employees serving 28 clients in its third-party management (400,000 beneficiaries managed) and outsourcing activities (data entry, call centers).
