

## PRESS RELEASE

### Cegedim Logiciels Médicaux to present Solution MSP at the FFMPs conference

In Lyon, March 17 and 18

Paris, March 15, 2017

**Cegedim Logiciels Médicaux (CLM)**, medical software publisher and service provider, announces that it will be attending the 6<sup>th</sup> National Conference of the Fédération Française des Maisons et Pôles de Santé (FFMPs), the French association of Multidisciplinary Health Centers. The conference will be held March 17 and 18, 2017, at the Centre de Congrès conference center in Lyon. CLM will be presenting **Solution MSP**, its software product for managing multispecialty health facilities.

More and more health professionals are choosing to work in group practices. At the same time, the health profession is developing structures – Multidisciplinary Health Centers – that bring together medical and allied health professionals under one roof, where they can coordinate care for patients close to where they live and work.

#### **250 Multispecialty Health Facilities use CLM**

In France, 250 multidisciplinary health facilities already use a Cegedim Logiciels Médicaux solution. For these clients, CLM proposes its **Solution MSP**, an all-inclusive software product for practice and patient care management implemented through a personalized working relationship. Solution MSP meets all of its clients' real-world needs from the moment it is installed thanks to tools for managing care coordination, multidisciplinary team meetings, and chronic diseases.

Healthcare professionals can use CLM's **Solution MSP** both in their practices and on the go, providing direct, secure access to their work environment and making everyday tasks easier. MSP relies on **MLM** (monLogicielMedical.com) web-based software, which in early 2017 earned Version 2 of the e-Santé "multispecialty health facilities" certification. The certification ensures eligibility for new forms of compensation (Nouveaux Modes de Remuneration, NMR) and attests to full compliance with requirements for operating in a multispecialty health facilities.

#### **About Cegedim Logiciels Médicaux (CLM):**

Cegedim Logiciels Médicaux (CLM), medical software publisher and service provider, is a leading player in doctor computerization in France. CLM listens closely to the needs of healthcare professionals, and its teams develop and market solutions that help them run their practices day in and day out. In today's rapidly changing environment, notably with respect to medical professional demographics and course of care, CLM's software offerings (MLM, Crossway, MédiClick, Crossway CDS, and MSP Solution) give doctors patient record management solutions that are 100% certified, suited to their practice, regulatory compliant, innovative and scalable. Medical content can be personalized for each specialty, interfaces adapt to multiple work spaces (private practice, group practice, multidisciplinary clinic or medical center), and the software enhances mobility, data sharing and care coordination. The company's innovative software uses Pack Connect CLM for connected health and Docavenue for the most advanced doctor-patient communications. CLM employs 150 people, including more than 100 in regional offices to give doctors personalized service.
